Subject: Well destruction for 421 23rd Avenue

Chris,

I am the case worker for a fuel leak case at 421 23rd Avenue in Oakland. Alameda County is ready to close this case; however, the destruction of all monitoring wells is a requirement for case closure. I understand there have been some permitting issues for the destruction of three off-site wells in Kennedy Street. Any help that you can provide to the consultant and responsible party in getting through the permitting would be appreciated as we would like to get this case resolved.

Thank you for your help,
Jerry Wickham
