Frank,

Thanks for contacting me. The first thing that needs to be done is for you to "claim" the site in Geotracker. Please click on the following link to claim the site: http://www.swrcb.ca.gov/ust/electronic_submittal/report_rqmts.shtml

The State Board website will open and you should hit the Electronic Submittal link at the top of the page next to Arnold's picture then look for the getting started section. Print out the PDF or word document Authorized RP Agent Authorization form and send to the state board. That takes care of it unless you have any reports that need to be uploaded but I don't see any.

I also requested that the site have the groundwater monitoring wells sampled. Please contact your consultant and have the wells placed on semi-annual monitoring.

Thank you.

Subject: fuel leak case No. RO0000400

Dear Barbara, my name is Frank Cruz, I am the Service Director of Volkswagen of Oakland, I have recently taken over this position and was given a letter dated back in July, in regards to the groundwater monitoring requirements. The letter states that we are not in compliance with this case. Please let me know how I rectify this and take care of it.

Thank You

Frank Cruz
