Cambria Project # 243-1408

Ms. chu:

Cambria Environmental Technology, Inc. (Cambria) is submitting this Site Investigation Work Plan Addendum on behalf of Equiva Services LLC (Equiva). This is an addendum to Cambria's November 2000 *Site Investigation Work Plan* for the referenced facility. In a letter dated December 19, 2000, the Alameda County Health Care Services Agency (ACHCSA) requested that Equiva submit a revised site plan including additional boring locations which will better locate and characterize the MTBE plume.

Figure 1 is a revised site plan showing the original and additionally proposed boring locations. All three borings will be installed downgradient from the site in the public right of way adjacent to nearby residential properties. The additional borings will be installed in the same manner as the originally proposed boring and all other aspects of this investigation will be performed in accordance with Cambria's November 2000 *Site Investigation Work Plan*.
