Subject: Re: Vapor Intrusion Investigation RO409 (351645 4276 MacArthur Blvd., Oakland)

Hello Nicole,

In light of the ongoing access agreement, we will suspend the April 30, 2014 date for submittal of a Vapor Intrusion Report. However, a new schedule for submittal of the Vapor Intrusion Report is to be submitted no later than April 4, 2014.

Regards,
Jerry Wickham
Alameda County Environmental Health

Hi Jerry,

I wanted to provide an update on the Vapor Intrusion Investigation progress. We discussed the proposed scope and schedule with Dr. Dorsey and her attorney including your additional comments from your January 27th letter. To-date, we are actively working through the terms and conditions of the access agreement with Dr. Dorsey. Once the agreement is complete, we anticipate it will take 2-3 months to complete the field work and prepare the investigation report.

In light of not having an access agreement, and given the proposed access restraints to weekend work and the time for preparation and review of the report, it appears unlikely that a Vapor Intrusion Report can be completed by April 30th. Therefore, Chevron respectfully requests that the report due date be suspended until a new due date can be determined, upon completion of the access agreement. I will inform you once the agreement is signed and provide you with a schedule to complete the vapor intrusion investigation work.

Please do not hesitate to contact me if you have any questions or would like to discuss this further.

Thank you for your time,

Nicole Arceneaux
Project Manager
