Subject: Fuel Leak Case No. RO409 (351645 4276 MacArthur Blvd., Oakland) - Vapor Intrusion Investigation & Well Installation Update

Jerry:

As we just discussed on the telephone, Chevron's consultant (AECOM) has been working with their subcontractor (Penecore) to schedule the well installation at Unocal Station 1156, located at 4276 MacArthur Boulevard in Oakland. The soonest mutually acceptable date has been identified as June 11. In your letter dated March 19, 2014, you established a well installation report due date of June 19, 2014. Based on the anticipated well installation date of June 11, that laboratory data won't be received until approximately June 26, and our required internal reviews prior to submittal of a report to an agency, you agreed to extend the report due date to July 25, 2014.

Thank you for your consideration and cooperation in this matter.
