**Subject:** Status of PEM Case No. RO0000411

Ref: Pacific Electric Motor 1009 66<sup>th</sup> Avenue, Oakland Case No. RO0000411

Greetings Paresh,

Could you please update us on the status of the former Pacific Electric Motor site, at 1009 66<sup>th</sup> ave, Oakland. We understand the original structure has been demolished with some subsurface soil removed. Are there any remaining issues related to soil or groundwater remediation and what are the current requirements or actions required by your Department?

Any information you can provide more be appreciated.

Thanks,  
Gary Norton
