SBS postponed until exact locations of former USTs / pump out, etc mapped -

Mr. Ron Hothem
369 Broadway
San Francisco, CA 94133

Subject: Former Chevron Service Station #9-1723
9757 San Leandro Street
Oakland, California

Dear Mr. Hothem,

Per our telephone conversation September 11, 1995, this letter is to provide written notification that Groundwater Technology, Inc. has been requested by Chevron U.S.A. Products Company to install 15 soil borings on the above-referenced site (Attachment 1). Groundwater Technology is currently scheduled to perform these field activities during the period October 2-4, 1995.

During a May 17, 1995 visit to the site vicinity, Groundwater Technology observed parked automobiles on the site which would obstruct drilling activities. In order to complete the soil borings, Groundwater Technology requests that all automobiles stored on the site be temporarily relocated during the period October 2-4, 1995.

Please do not hesitate to contact me at (916) 372-4700 if you have any questions regarding this matter. Thank you.

Sincerely,
Groundwater Technology, Inc.
