**Re: Former Chevron Service Station #9-1723
9757 San Leandro Blvd.
San Leandro, California**

Dear Dr. McHuron:

I am enclosing a copy of the *Investigation Workplan* that was prepared by our consultant Cambria Environmental Technology, Inc. This is in reply to your letter of November 5, 1997 requesting a copy of this plan.

It is Chevron's understanding that your company has been retained by the trustees of the estate of Mr. Ronald Hothem, who has passed away, to assist them in understanding the groundwater monitoring and other programs occurring at this site. As requested, Chevron will forward a copy of all reports to your office, in addition to copies that will continue to be forwarded to Pacific American Management Co.

I am also enclosing a copy of the letter from Eva Chu, with Alameda County Environmental Health Services, approving the submitted Work Plan but with two changes/additions. I have been advised by Cambria that analytical results have been received and that I should expect to receive the completed report in a couple of weeks.

If you have any questions call me at (51) 842-9136.

Sincerely,
CHEVRON PRODUCTS COMPANY

Philip R. Briggs
Site Assessment and Remediation Project Manager
