Re: Certification of Fact Sheet Distribution, Gritmit Auto Repair and Service,  
1970 Seminary Boulevard, Oakland, California (Fuel Leak Case No. RO0000413)

Dear Ms. Jakub:

On June 20, 2013, Alameda County Environmental Health Department (ACEHD) issued a letter that conditionally approved implementation of dual phase extraction (DPE) subsurface remedial efforts at ACEHD fuel leak case no. RO0000413, located at 1970 Seminary Avenue, Oakland, California. However, prior to implementation of remedial efforts, ACEHD indicated that the owners and residents of nearby properties must be notified in advance so that these parties may comment on the proposed remedial project. ACEHD provided a 'Fact Sheet' letter, describing the work, and a mailing list of the appropriate parties.

On behalf of the Gritmit Family Trust, owners of the property at 1970 Seminary Avenue in Oakland, Stratus has mailed the 'Fact Sheet' to each party identified in the June 20, 2013 correspondence. Please accept this letter to certify that this work activity has been performed. The Fact Sheets were distributed via the United States Postal Service on June 21, 2013.

Sincerely,

Scott G. Bittinger, P.G.  
Project Manager
