To: Douglas Herman
Subject: RE: RO414: ACCEPTED DOCUMENT ON FTP SITE

Dear Mr. Herman,

I have performed an initial review of the document titled *Response to request for Additional Information and Request for No Further Action for the Oakland Maintenance Center (OMC) and the Former USTs MF25/26 Toxics Leaks Case RO0000414 (MOIA United Airlines) at the Oakland International Airport, Oakland, California*, dated November 5, 2012 and prepared by URS Corporation. The document included the report *Final Report- Closure Documentation for the Former Oakland Maintenance Center (OMC), Oakland International Airport, 1100 Airport Drive, Oakland, California*, dated October 31, 2012 and prepared by URS Corporation. Item 5 in the former referenced report indicated a worker health and safety plan and a groundwater management plan would be prepared for the site. A more complete review of the November 5, 2012 document was not performed pending receipt of the latter document, which was received by Alameda County Environmental Health on February 5, 2013. As these two documents are intertwined, they will be reviewed together. I will be out of the office several days in March and can't anticipate completing the reviews within 60 days of the February 5th date. However, I believe I can get this done within 90 days.

Regards,
Keith Nowell

Hi Keith;

It's been about 90 days since we submitted the report below. We've also submitted a draft Risk Management Plan for this site. Can you please let me know when we can discuss the status of this site so that we can move to site closure....thanks

Douglas Herman

Good morning,

We had technical difficulties with our server yesterday so we weren't able to receive any incoming reports. Please re-upload your report to our FTP site. Sorry for the inconvenience.

Thank you,
