Subject: Site Cleanup Program (SCP) case file # RO0000414 and Geotracker Global ID T0600101423, MOIA, United Airlines MF35/36, 1100 Airport Drive, Oakland CA 94621

Dear Ms. Chuop and Mr. Tisoncik:

This letter is to document a conversation on November 7, 2018 between Port of Oakland representative Ms. Chuop and Keith Nowell with the Alameda County Department of Environmental Health (ACDEH). Prior to the phone call, Keith Nowell conferred with his supervisor, Paresh Khatri, about survey requirements for the wells comprising the groundwater monitoring well network for the subject case. It is the opinion of our agency that all wells in the network should be surveyed to allow for the submittal of well data, both EDF and GEO_WELL, to the State Water Resource Control Board's (SWRCB) GeoTracker database.

In order to gain compliance with the California Code of Regulations, Title 23, Division 3, Chapter 16, Article 12, Sections 2729 and 2729.1 for the data submittals, ACDEH requests all 30 wells in the monitoring network be surveyed. Following verification of the GEO_XY and GEO_Z data, you may proceed with the authorized destruction of the 26 wells identified in our September 17, 2018 letter.

Thank you for your cooperation. ACDEH looks forward to working with you and your consultants to advance the case toward closure. Should you have any questions regarding this correspondence or your case, please call me at (510) 567-6764 or send an electronic mail message at keith.nowell@acgov.org.

Sincerely,

Keith Nowell PG, CHG
Hazardous Materials Specialist

REPORT & DELIVERABLE REQUESTS

Alameda County Department of Environmental Health (ACDEH) Cleanup Oversight Programs, Local Oversight Program (LOP) and Site Cleanup Program (SCP) require submission of all reports in electronic form to the State Water Board's (SWB) GeoTracker website in accordance with California Code of Regulations, Chapter 30, Division 3, Title 23 and Division 3, Title 27.

Leaking Underground Fuel Tank (LUFT) Cases

Reports and deliverable requests are pursuant to California Health and Safety Code Section 25296.10. 23 CCR Sections 2652 through 2654, and 2721 through 2728 outline the responsibilities of a responsible party (RP) in conjunction with an unauthorized release from a petroleum underground storage tank (UST) system.

Site Cleanup Program (SCP) Cases

For non-petroleum UST cases, reports and deliverables requests are pursuant to California Health and Safety Code Section 101480.

ELECTRONIC SUBMITTAL OF REPORTS

A complete report submittal includes the PDF report and all associated electronic data files, including but not limited to GEO_MAP, GEO_XY, GEO_Z, GEO_BORE, GEO_WELL, and laboratory analytical data in Electronic Deliverable Format™ (EDF). Additional information on these requirements is available on the State Water Board's website (http://www.waterboards.ca.gov/water_issues/programs/ust/electronic_submittal/)

- Do not upload draft reports to GeoTracker
- Rotate each page in the PDF document in the direction that will make it easiest to read on a computer monitor.

GEOTRACKER UPLOAD CERTIFICATION

Each report submittal is to include a GeoTracker Upload Summary Table with GeoTracker valid values¹ as illustrated in the example below to facilitate ACDEH review and verify compliance with GeoTracker requirements.
