I was forwarded a message that Dianne Heinze, Port of Oakland, called regarding RO414- United Airlines MF35/36. I returned her call (510 / 627 – 1759). She indicated that they have done a lot of work and wants to know how to get to closure. I looked at the ftp site and said I have no indication that work has been performed since 2006. Dianne said they've installed more wells and done soil borings. I asked the reports be uploaded to our ftp site for my review so I'd see what the current site conditions are. I sent her an email ( [dheinze@portoakland.com](mailto:dheinze@portoakland.com) ) including a link to our website, and said I could put her in touch with someone if there were problems uploading the reports.
