RE: Review of Underground Storage Tank File
Former Service Station Located at:
14994 East 14th Street, San Leandro, CA

Dear Mr. Bakaldin:

I would like to review the underground storage tank file for the above-referenced site. The purpose for reviewing this file is to determine former owners and operators of the underground storage tanks, any permits for tank repair and any information that may be available concerning the removal of the tanks. My client, Mr. Kubo, has been named as a potentially responsible party by the Alameda County Health Department for contamination found at this site.

I would like make an appointment for Thursday, June 24, 1993, at 10:00 a.m. If this time is not available, please contact me at the above telephone number.

Thank you for your assistance in this matter.

Very truly yours,

RANDICK & O'DEA

Julie M. Rose
