Oct 5, 1993. Spoke w/ Lynn Nightingale. She is pursuing law where she is not responsible for cleanup if she inherited property ^(from uncle), not knowing it had USTs and it was contaminated.

I told her, because she inherited the property first, then ~~found~~ discovered the contamination when she authorized the tank removal, that she would still be named as an RP.

In the meantime, she will send report of investigation performed by subsurface (5 add'l SAs) to further delineate soil contamination.

She has applied for cleanup fund, but not given a case no. waiting for next round.
