Mr. Gray,

Your letter was forwarded to the active responsible party with a request that they provide responses to the items in your letter. No response was received from the responsible party. We will be sending a formal directive letter requesting a response. I will provide you with a cc copy.

Regards,
Jerry Wickham
Alameda County Environmental Health

Gentlemen & Ladies:

We rather curious as we have had no response to our concerns expressed in the letter (shown in the attachments- in both MS Word and Word Perfect), save a request for the address of the Day Care Center (which we sent). I know that no work is being done during the rainy season (earth moving is a problem no-no) but we are requesting the courtesy of a response so we can determine if we need to take some kind of action for our neighborhood. It seems to me that common courtesy would require a response, even if it is to take a flying leap at *!#&%.

What is going on?

Robert B. Gray
President of Glenview Neighborhood Association

Subject: 4035 Park Blvd Remediation

Attached is a letter expressing our concerns about the planned remediation procedures for the property at 4035 Park Blvd. We are in favor of the remediation moving forward expeditiously, and in no way want to delay or stop the remediation process, but the proposed methods set forth do not address the concerns raised in our letter (sent in both MS Word and in Word Perfect formats) regarding neighborhood health and safety. We are requesting clarification on those issues.

Robert B. Gray
