Subject: RO# 0439 Report Extension

Mr. Wickham,

CRA, on behalf of Chevron, is requesting an extension for the submittal of the Soil Vapor Survey Report. During our phone call yesterday afternoon, CRA report that there were elevated methane concentrations detected in some of the vapor points. We plan to have this information evaluated to determine if the results are valid and how to proceed.

We request a new submittal date of Wednesday, April 8th.

Please let me know if you need any more information.

Thank you,

Charlotte Evans
