Chris,

Thanks for the email. Please use this email to document ACEH concurrence with the extension and the revised deadline. This is expected to allow you sufficient time to collect additional vapor samples due to the problems encountered with the first set.

Best,

Hello Mark,

As discussed with you previously, we have requested a 30-day extension to the current reporting schedule for the Site Investigation Report for 1650 65th Street (also known as Emery Bay Plaza, and RO#440) in order to conduct additional testing at the Site. We appreciate your concurrence with this request, and as such, the Site Investigation Report will be submitted to ACEH by May 28, 2012.

Regards,
Chris
