AGENDA

August 22, 2013 Meeting
Alameda County Department of Environmental Health (ACEH)

1650 65th Street, Emeryville, California
Fuel Leak Case No. RO0000440

A. Introductions and Opening Remarks

B. Progress Since Last Meeting (June 2011)

- a. Submitted and implemented approved work plans addressing data gaps and impediments to closure identified by ACEH;
- b. Eliminated groundwater plume data gap through installation and sampling of temporary groundwater well;
- c. Confirmed absence of vapor intrusion concern, and presence of oxygen-rich environment beneath building near former tank through installation and sampling of sub-slab vapor probes;
- d. Collected additional soil data outside of former tank excavation area;
- e. Conducted discussions of results with ACEH;
- f. Prepared and submitted report documenting additional investigations;
- g. Prepared and submitted Site Conceptual Model document;

C. Discussion of Technical Comments in July 11, 2013 Letter

1. General Criteria d; Removal of Free Product to Maximum Extent Practicable
2. Vapor Intrusion into Indoor Air Media Specific Criteria
3. Direct Contact and Outdoor Air Media Specific Criteria
4. Groundwater Media Specific Criteria – Well MW-8
5. Intrusive Earthworks Guidance Plan
6. Electronic Submittal of Information (ESI) Compliance

D. Closing Discussions
