Hi Barb,

I just heard back from the drillers about scheduling this. It looks like they can fit it in the third week of September. That should leave time for the permit to come in. I apologize for the delay with this; we've encountered a few snags along the way but things seem to be back on track. Would it be possible to extend the report deadline to October 31<sup>st</sup>?

Paula

Paula,

Have you been able to get the encroachment permit from the city yet? I was reviewing the remediation report and wondered if the wells were installed yet.
