Subject: RO 450, 1629 Webster, Alameda, Additional Request

Bill and Dennis,

We spoke at the meeting of you sending a map showing the five proposed ozone sparge locations for the 1629 Webster St., Alameda site. I would also like to request that you include the depths of the screens or injection areas. If you have a cross-section and can include them on that, I would appreciate it.

Also, as we talked about in the meeting, I would be happy to prioritize review of this work plan so that this work can be performed. Do you have an estimated date that I can expect this information to be sent?

Regards,

Barbara Jakub, P.G.
