Michelle,

Thank you for your patience, but now you can move forward! Please note that a soil and groundwater management plan (SGMP) is in effect for your site and contractors and their subcontractors need to abide by the SGMP. Also, the existing on-site wells need to be properly abandoned prior to redevelopment. The destruction of the on-site wells has been previously approved by our office and redevelopment activities need to be coordinated with Nicole Arceneaux (nicole.arceneaux@chevron.com) with the Chevron Environmental Management Company so that they can properly destroy the wells.

Regards,
Keith Nowell
