Issues:

generally 2 ft to → 9 ft (hot areas)

1) Hot spots source removal - to what depth (extent) collect verification samples

2) Results of 8270

3) MW replacement for SFFB → City of Emeryville ^{not} ~~Cattellus~~ _{response}

4) MW installation to determine impairs of residual soil that will be left on site

5) Clean up goal for the site - same as Yerba Buena Project?

6) (Management Plan to be submitted)

Witha upgrade of C&S

7) need to sit down with City Redevelopment Agency

8)

Road is stalled by ^{Cattellus} ~~new~~ ₁₉₉₄ ~~street~~ _{well}

D-5 source removal
