Kiersten,

We concur that collecting the off-site soil samples is not necessary since the locations are so far from the site. As we discussed, you may want confirmation data from the on-site boring so please collect soil samples from that CPT boring.

Subject: RO0455, 96 MacArthur Blvd, Oakland ~COR-060727-2011~

Hi Barbara,

As we discussed yesterday, Delta proposed collecting soil samples from the CPT borings in their February 16, 2009 *Work Plan for CPT Vertical and Lateral Stratigraphic and Plume Definition*; however, collecting soil samples from the three offsite CPT borings is not necessary because the purpose of the work is to assess the extent of dissolved phase MTBE. Therefore, we propose to remove collecting soil samples from the offsite CPT borings (located over 200 feet from the site) from the scope of work.

Thank you,
Kiersten
