

Meeting (On-site)
96 MacArthur, Oakland

09/11/98

Attending: Tina Berry, Tosco
Dick Mathews, Tosco
Barbara Bee, Property Owner
Juliet Shin, Alameda County

Noted that on-site wells were severely damaged. One well, Well MW-4, had the PVC cut & open & exposed for possible infiltration of surface water or vandalism. Discussed w/ Tina Berry that wells will need to be properly closed immediately and replaced. Ms. Berry proposed placing most of the new wells in the sidewalk, so I said that would be acceptable as long as these new wells were immediately downgradient of former locations. However, I did insist that Well MW-4 remain where it has been, since it's had the highest hits. We discussed locations for hydroponches downgradient & lateral to the site.

Discussed requirements for a risk assessment.
