#123

11/10/98 Called ~~Dang Lee~~, Gertler-Ryan, , after reviewing workplan. Asked where the addendum was to the workplan, which addressed the utility line concerns. Mr. Lee stated that he hadn't sent it yet, & said he would fax it to me. I discussed my comments on the workplan with him.

11/10/98 Contacted Dang Lee, Gertler-Ryan, after reviewing the utility line info in the workplan addendum. The map of the utility line is not clear. According to Mr. Lee the "FL 69.39" #'s are elevations above MSL. Mr. Lee will submit a more detailed map ~~after~~ at a later time. If they find that utility lines may be a problem, further investigations related to lines will be conducted.

12/14/98 Contacted Tina Brown, TOSCO, (925) 277-2321, to inform her of the site located at 100 MacArthur, which could be migrating to areas that TOSCO will be investigating downgradient of their site.
