RO456 - BP #11102 - 100 macarthur  
07/08/05, 1040a,  
Lynell, URS, 408-839-4836  
100 macarthur, BP site, notifying us of drill work on 07/13-14, WP approved end of may

## CONTACT LOG (100 MacArthur Blvd)

- 12/22/98 Tina Berry, Tosco, called back & said that she left a message w/ Kristen Darcus at Tosco to find out about tank work at site. Ms. Berry said that she believed no samples were collected as part of the tank work, otherwise she "would have a report documenting the sampling in her office." I requested she contact me if sampling was done.
- 02/12/99 Scott Hooton, BP, (425) 251-0689, called & left message requesting that we meet at site to discuss requirements of the County's Jan 99 letter.
- 02/21/99 Returned Scott Hooton's call. Made arrangements to meet out at site on Tues. March 16 '99 @ 11AM. Discussed the fact that BP will currently be working w/ County on requirements until BP & Tosco resolve Tosco's role in these investigations.
- 04/09/99 Scott Hooton, BP, called to say that his consultants did not collect enough samples in the last round of sampling to conduct 8260 analysis, & that they will conduct the 8260 analysis in next round of samples.
- 04/15/99 Returned Scott Hooton's call. Stated that 8260 analysis can be run in the next sampling event.
- 05/19/99 Called Sonia West, SPL Lab, (713) 660-0901, to find out what the high "% Recovery" for 1,4-Difluoro benzene for both g.w. samples in the April 21 '99 report meant. She said it was due to high levels of MRE & that it does not mean that results are incorrect.

## CONTACT LOG (100 MacArthur Blvd.)

- 12/14/98 Left message for Scott Houston, BP Oil, (925) 251-0689 to find out whether BP, or Tosco that purchased BP, is the primary responsible party for investigations at the site. Requested that he return my call.
- 12/14/98 Left a message for Tina Barry, Tosco, (925) 277-2321 asking whether the <sup>bank</sup> upgrade work proposed in ERT's July 11 '98 workplan has been implemented, and requested a copy of a report documenting the results of soil samples collected beneath dispensers and lines.
- 12/15/98 Tina Barry, Tosco, called & left message stating that BP Oil is currently responsible for on-going investigations at the site.
- 12/15/98 ~~Scott~~ Scott Houston, BP Oil, called & stated that he believes that BP Oil is in the process of trying to resolve responsibility issues w/ Tosco. He will be back in office on Dec 28 '98 & will call me then.
- 12/22/98 Called Tina Barry, Tosco, and asked her to get me a copy of the recent bank work if any sampling was involved. Discussed the issue of whether Tosco or BP is taking responsibility for investigations. I mentioned that if Tosco is the current property owners, then they would be listed by the State as an RP as well.

Spoke w/Michèle Fear of Mobil (1-800-227-0707 x5316) she'll send a copy of the 12-20-89 Alton Geoscience report, + a copy of the ULR if they <del>have</del> have it in their files. GW monitoring began in 4-90.		Their consultant will make a visual inspection to see if someone dumped something upgradient of MW1. She'll let me know outcome. They may turn site over to BP soon. Hold her to continue Q-ly GW sample; that biannual sample not good.		Alisto Co. They are consultant + will g GW Report out next week (798-4070)	
8-5-92	JE	8-11-92	JE	9-25-92	JE
Received letter from Mobil + 12-20-89 <sup>AG</sup> report + 10-7-88 Soil Sample Report + 9-16-91 letter to Rafat. I phoned M. Fear of Mobil + asked if the SP was removed or backfilled into pit. She looked thru file + found a contract of soil removal W/W Chem, invoice from W Chem + HW Manifest. She'll send me copies. Also she'll look for ULR. She found the ULR. Will send		Rev'd letter fr M. Fear at Mobil w/all documents we agreed on during 8-5 tel con except HW manifest for soil disposal. Phoned M. Fear; she'll send it.		Rev'd Quarterly Report by Alisto (8-29-92) GW flows W-SW. GW sampled 7-22-92 had up to 4000 ppb TPH-g, in MW1. MW1 also had 1700 ppb TPH-d + 330 ppb benz on 8-14-92. MW2 + MW3 have low or ND levels.	
		8-25	JE	10-8	JE
		Rev'd Haz Waste Manifest for soil. Also rev'd letter fr Mobil stating that BP has <del>been</del> named future.		Scott Hooton is new BP contact. 206-394-5244 or 43 As of Oct. 1 <sup>st</sup> , BP is doing cleanup + is billing Mobil.	
				11-8	JE
				New Not. letter written w/new RP info. (not sent).	
				2-23-93	JE
				Rev'd 1-26-93 cover letter fr BP w/request for case closure, + 1-6-93 PR by Alisto. Big ↓ in MWP. Wrote letter to

TP found this file + ~~the~~ its contents ~ 8-1-94. Gave to JE to file

Review 3<sup>rd</sup> quarterly report - low levels of TPH-G found in MW-2, DG of USTs. Mobil proposes only continued monitoring, because it would be physically difficult to expand GW monitoring network. Low levels of contamination indicate that site is low priority.

Contamination levels dropping across the board, according to most recent quarterly rpt.; additional wells do not seem warranted.

tel con w/ Mobil from JE invests to eliminate soil cont.

XR State # REMARKS

Date	By	REMARKS
7-22-92	JE	Phoned BP at 206-394-5246. Pete DeSantis is out. Spoke w/ Steve Loveall. Inquired abt the info that Pete was going to ask Mobil for: a) was the soil around w.o. tank overexcavated? b) past reports, esp. 12-20-89 (Alton Geoscience) c) ULR. He gave me the name of a Mobil contact - Ed Hoepker - 707-749-6160.
4-6-92	EC	Transferred to LOP/Not. letter written
6-26-92	JE	Mtg. w/BP + consultant + all LOP people w/BP sites. BP - Pete DeSantis; Hydro Env. Tech. - Markus Niebarck
7-22-92	JE	Received Quarterly GW Report dated 7-6-92. by Alton Geoscience. MW-1 has substantially elevated levels this quarter. (4200 ppb TPH-g, 910 ppb TPH-d,
7-27-92	JE	Phoned Ed Hoepker at Mobil
