Rich,

Got her done. Finally! I'm mailing the invoice to you but am sending the Well Completion Reports directly to the Alameda County Public Works Agency, along with a copy of the well-permit receipt.

Rich,

I reviewed this info but am not clear on what you want me to do. What size is the well, and how deep is it? Has a destruction permit been obtained? What method of destruction is Alameda County requiring (pressure grout or drill out)? Keep in mind that we are a drilling contractor and not a consultant. Our insurance carrier does not allow us to provide any services related to the latter. We normally provide the on-site drilling services but do not take care of the preliminary or follow up services. You may need the assistance of a consultant such as Rob Campbell.

Please call me about this.
