Hi Bob,

I appear to have a tank removal report for the diesel UST, but don't know where it came from (I presume you, but can't find an email). It's not on the ACEH website nor is it on Geotracker. I also see that well MW-3 has been destroyed, without ACEH approval or notification, and do not have a report to document the destruction. I also note that the Soil and Groundwater Management Plan and the building pad excavation and backfill report have not been submitted to Geotracker. It appears that standard required documents have not been submitted using standard ACEH or State submittal practices; please submit these documents to both web sites by July 29, 2013.
