Dear Mr. Bohman,

As we discussed on the telephone on 4/22/93 it was understood that you had approved of the installation of the 245 Gal. SAFEWASTE system at the above mentioned location.

Furthermore it was understood that the local contractor that Steton Construction Group obtains, in order to proceed with the installation, must first go to your office in person and pay a \$40.00 permit fee. ~~X~~ payment is made by check, make payable to Castro Fire Dept.,

It is also understood that just before the contractor begins the installation he must notify you of the construction schedule so that proper provisions may be made to schedule any inspections.

Furthermore, I understand that the owner of the business, i.e., the Goodyear Store Manager must fill out the permit application. You also suggested, that the contractor can pick up the application and take it to the Goodyear Store Manager and have him sign the application.

It is also understood, your dept. does not require a copy of the site plan.

Please indicate your approval of the above mentioned procedures below and initial and fax back to me at your earliest convenience.

Sincerely,

Al Alvarado
