Returned Jack Hardin's (Stantec) call regarding our July Directive Letter. Jack wanted to skip pref pthwy eval, source area evaluation, and FS/CAP and just excavate the source area. I told him that DTW is shallow so a preferential pathway evaluation is warranted. If he wanted to skip FS and excavate, his client may not receive reimbursement from the State UST Cleanup Fund. He said he will complete the preferential pathway evaluation and submit a CAP within 60 days (around December 15, 2008).
