Subject: RAP for Lim Property RO#000479

Dear Jerry,

You and I spoke a couple of weeks ago regarding the status of the Lim Property located at 250 8th Street in Oakland, California. At the time of our phone conversation, Aqua Science Engineers (ASE) was in the process of completing the Interim Remedial Action Completion Report and the final Remedial Action Plan for the final phase of remediation for the site. I explained to you that I would be sending it to you in a weeks time.

Although the report is complete, it is currently with our client/responsible party, where he is reviewing its contents before providing ASE the approval to send it to your agency. Our client is unable to meet with us until the week of April 12, 2010 to go over our report. I assume that soon after our meeting, ASE will be directed to send the report to you. I appreciate your patience in this matter. Should you have any questions or comments, please feel free to contact me. Regards.

David Allen
