Robert,

We have no objection to delaying the groundwater sampling up to 30 days.

Regards,
Jerry Wickham
Alameda County Environmental Health

Hi Jerry -

The quarterly groundwater monitoring 250 8th Street, Oakland was scheduled to take place this week. I will be personally conducting the sampling. However, I have an extremely sore back this week and would prefer to wait another week before conducting this sampling. Please let me know if a delay of a week or two will be an issue.

Thank you.
