QUARTERLY SUMMARY REPORT

Third Quarter 1997
(July - September)

FILE # 7176 SS ✓ BP
RPT QM TRANSMITTAL
1 2 3 ✓ 4 5 6

UNOCAL SERVICE STATION 7176
7850 Amador Valley Boulevard
Dublin, California

City/County ID: Alameda County Health Care Services Agency

County: Alameda County

BACKGROUND

The site is currently occupied by an operating Unocal service station. The UST's have been replaced and the used-oil tank removed. The majority of hydrocarbon-impacted soil (1,863 tons) were excavated and transported to a Unocal-approved landfill. In July 1995, Unocal subsequently performed a soil and groundwater investigation which included drilling nine soil borings and constructing three groundwater monitoring wells. Oxygen Release Compound (ORC) is present in the three groundwater monitoring wells and one tank pit well.

RECENT QUARTER ACTIVITIES

Performed quarterly groundwater monitoring.

NEXT QUARTER ACTIVITIES

Continue to perform groundwater monitoring, sampling and reporting. Pursue off-site property access for a proposed investigation.

CHARACTERIZATION/REMEDIAL STATUS

Soil contamination delineated?	Yes
Dissolved groundwater delineated?	No
Free Product delineated?	NA
Amount of gw contaminant recovered this quarter?	0 gallons
Amount of gw contaminant recovered to date?	15,511 gallons/groundwater
Soil remediation in progress?	No
Dissolved/free product remediation in progress?	No
