**Subject:** 4255 MacArthur Blvd., Oakland, CA (PlaNet ID 10059253 & ACEH RO386): 3Q16 Groundwater Monitoring Report Extension Request

Hi Kit,

I just left you a voicemail on this - the 76 Station located at 4276 MacArthur Blvd (RO0409) that we coordinate sampling with is now managed by Arcadis. We have been in contact with them, but they do not have their groundwater data lab report ready to submit to us. The 4255 MacArthur 3Q16 groundwater monitoring report is due to ACEH on 10/17. We expect the Arcadis to send the data this week. I anticipate an additional 2 weeks will be needed to receive and incorporate their data into our report. Please approve an extension for submitting the 3Q16 report, AECOM will submit on or before 10/31.

Let me know if you have any questions or concerns.

Thank you!
