Subject: RO#491 Assessment

Hi Barb,

It looks like we will have to postpone our utility trench backfill sampling project at Former Exxon 73006 (720 High Street, Oakland, RO#491). We had it scheduled for next week on the 19th and 20th. We have sent many emails and made many phone calls to the City of Oakland over the last few weeks for our encroachment permit and have had no response at all from the Traffic Division. All the other departments responded and approved, and even attempted to help us by also requesting directly to the Traffic Division to approve (or respond), but we can't reach anyone in the Traffic Division and they aren't responding. We are out of time in terms of USA notifications and followups, so it will have to be postponed. I'll let you know as soon as we get this worked out.

Paula
