**Subject:** RO#491 Assessment - Update

Hi Barb,

Well, wonders never cease.

The City of Oakland came through last week with our traffic permit, so we picked it up and got the obstruction permit and are ready for the trench backfill sampling at 720 High Street, Oakland (RO#491). It was still too late to make our scheduled drilling date (originally planned for Tue-Wed this week), but we were able to re-schedule everything to occur next week, so the assessment will move forward as planned, just a week later. We will be potholing and taking the trench backfill samples next Thursday and Friday, August 28-29th. We'll meet on site around 8:00 a.m. Thursday to go over the work scope and health and safety concerns, then mob into the street at 9:00. The last cone has to be out of the street by 3:00 and we'll be packed up and off site around 4:00. So, if you're in the area, I hope you can stop by.

Paula
