Dear Mark,

Facility 91026 is one of the sites that our consultant Nathan Lee was looking to discuss with you by phone call/message he left. We have been working on finalizing this report by the proposed September 8, 2014 date that you requested during our meeting on 7/18/2014, although unfortunately we are still in the process of trying to collect information from third parties and will require an extension of October 3, 2014 as initially requested.

We appreciate your consideration regarding this request and will work to complete this submittal as soon possible.

Thank you,

Alexis N. Fischer

Dear Mark and Dilan,

Seeking your approval with regards to an extension request for the and Site Conceptual Model Addendum and Data Gap Work Plan which was requested by Alameda County Environmental Health (ACEH) in a letter dated April 29, 2014 and is due on July 25, 2014 for the facility referenced above. CRA has worked on multiple deliverables that have been submitted and are currently being worked on over the last month and a half and they have informed me that additional time will be necessary in order to complete the Site Conceptual Model Addendum and Data Gap Work Plan. Therefore, an extension of **October 3, 2014** for the submittal of both the Site Conceptual Model Addendum and Data Gap Work Plan is requested.

Thank you for your consideration and support.

Regards,

Alexis N. Fischer
