Keith:

This is a follow-up to the "*Groundwater Monitoring Report, Former C&L Trucking, 2460 Wood Street, Oakland, CA*", by Hydro Analysis, Inc., dated October 18, 2017, that was submitted to your office on 10/25/2017. The report presented the results of shallow groundwater sampling and also provided conclusions and recommendations for the site.

Janice With is interested in moving forward with activities at the site. We would appreciate a timely review of the report by the County, along with a directive outlining the additional steps that will be necessary to facilitate case closure.

Thank you for your attention to this matter.
