I received a phone call from Ms. Normita Callison regarding Pacific Supply, RO514, a 5-year review site. Ms. Callison called to inquire about the status of the site as she received a letter from the Fund indicating the site will be closed and that they will only reimburse her for well destruction. She indicated my directive letter, dated 9/20/2012, was sent to an old, out-of-date address, and addressed to the former consultant. The directive requested additional work to address data gaps. She will provide updated contact information for both herself and the consultant.

Ms. Callison indicated they have submitted old report and have a current GWM report to upload. I said I will review the data and re-evaluate the request for work.
