

Site Summary STID 3597
Hooshi's Auto Repair
1499 MacArthur Blvd.
Oakland Ca 94602

10/2/90 3 gasoline USTs (two 1000-gal and one 500-gal) and 3 pumps removed on 10/2/90 or 10/3/90 (BC was there, but no field report is on file). The tanks were in a concrete vault. Very strong HC odor and stained soils encountered while removing the overburden soils. Slight seam leak on 500-gal UST. USTs were in good shape, but the vent piping was in bad shape. Results: up to 450 ppm TPH-g and 8.7 ppm benzene. . . also 0.15 ppm organic Pb (TPIKA-S)

10/17/90 Tank Closure Report by KTW & Associates.

11/9/90 Level One Environmental Site Assessment" by Earth Metrics Inc. for Tracy Savings and Loan. They found no evidence of environmental impairment at the site. They didn't do any borings or take any samples. Site has been service station since the 1940s.

11/12/90 Letter from KTW to Tom English. Reports that the soil stockpile had been removed, but not by them.

12/6/90 Letter fm KTW to AlCo. KTW has chosen to disassociate with the RP due to the RP's actions which they think are illegal.

12/10/90 Letter fm AlCo to RP. Requests info re the disposal of soil SP, a wp for MWS, and an ULR.

3/26/91 Letter fm Tracy Federal BAnk to AlCo. Includes 3/12/91 wp for one MW by KTW.

5/2/91 AlCo requested a site map from Tracy Bank

6/3/91 AlCo requested RP for 3 MWS

6/10/91 WP for 2 MWS and 3 SBs by David Glick Associates

7/9/91 fax to AlCo from David Glick. Yes, wp should say 3 MWS, not 2. It was a typo--sorry!

7/15/91 ULR filed by Paul Smith

7/17/91 Letter to RP from AlCo, approving Glick wp.

3/18/92 NOR sent to Tom English
