RE: ST11) 3940 2615 Eagle Ave, Alameda

Misty called to ask whether or not the County had received any response to Table 3, which was required of the Alameda School District. She also mentioned that she did not get copied on most recent letter requiring this work. She requested that the County FAX her a copy of this letter at (510) 865-5731.

TO: Juliet Shin AFFILIATION: Alameda County  
TITLES: PHONE: (510) 271-4320

RE: STID 3940, Alameda Unified School District, 2615 Eagle Avenue, Alameda, California

Mr. Diel stated that he was out at the site during the tank removal. He stated that he did observe some seepage of water into the tank pit. He recalls that there was some uncertainty about the source of this water because the seepage was coming from the sidewall of the tank pit and not from the bottom. The seepage only came out of one wall. The seepage was constant. He recalls that water samples were collected. Ms. Shin mentioned that water samples were collected but never analyzed. Mr. Diel stated that these samples may have been voided because ~~it~~ they were not found to be groundwater.

Mr. Diel said that Chuck Kiper, of SEMCO, may be able to give more details as to where the seepage came from.

Mr. Diel was told Mr. Shin that a letter is being sent out to him requesting that he write a statement as to what he observed at the site. Mr. Diel stated that tomorrow is his last day w/ Alameda School District, however, he reassured Ms. Shin that he would

receive any correspondence directed to him at  
Alameda School District.

He will be starting his own business called  
National Asbestos Labs, Consulting Division. His  
phone number there is (510) 357-2202. If you  
have any further questions feel free to contact  
him.
