

PHONE LOG

1/18/96

Scott Ferriman, Aqua Science Engineers
- Due to the discrepancy between the depth of the on-site monitoring well in Pavlak's report and the depth of the well in Aqua Science reports, it was uncertain whether the well was screening properly. Mr. Ferriman went out to site to "eyeball" the ~~see~~ top of screen by shining a powerful light down the well. He stated that he observed the screen ~~above the~~ approximately $1\frac{1}{2}$ ' above the water table at site yesterday.

Phone Log

3/3/94

3/3/94 I contacted Jim Keller, Blaine Tech, (408) 995-5535, & requested that he look for any information on any potential investigations subsequent to well installation. He said he would get back to me.

3/3/94 Erma DeLuechie 531-0197 & Juliet S. Ms. DeLuechie had called to ask questions about NOR. She again stated that she had no files on former investigations. I told her I would get back to her w/ requirements after Jim Keller called me back. I gave her info for State Trust Fund.

3/3/94 Jim Keller called back. He stated that their files only contain info on tank removal. He said that he would talk to Ruth Blaine & the RP & get back to me.

PHONE LOG (2425 Central)

12/19/94 Ms. De Luechi, (510) 531-0197

Spoke to Ms. De Luechi about Dec 9 '94 & sampling requirements. Gave her step by step details of required investigations. Gave her phone #s of Mr. Pavlok & Jim Keller.

Phone Log

12/15/93 I called the Automotive Auto Repair store and obtained Mrs. DeBeech's phone # + address:

P.O. Box 11279
Oakland, CA 94611
(510) 531-0197 home
(510) 531-2435 work

According to the employer I spoke to, several events of groundwater sampling was conducted out at the site.

(I need lab results)

12/15/93 Obtained phone # of former consultant Lawrence Pavlok, (408) 371-9639 home Earth Systems Environ. → (408) 365-8122 work

12/15/93 Spoke to Erma DeBeech, she stated that she would call me back.

12/22/93 Spoke to Lawrence Pavlok. He said that Pavloc and Associates installed the well at the request of Blaine Tech Services. Mr. Pavlok worked w/ Rich Blaine of Blaine Tech. The well installation was the last thing that Pavloc + Assoc. did for the site.

12/22/93 I contacted Blaine Tech Svc, at (408) 995-5535, & the receptionist said that I should speak to →
Jim Keller, Blaine Tech. I left a message for him.

12/22/93 Called HoM Environmental to check whether OSTs were transported off site by them. They only had documentation showing that they removed liquid in tanks, but not the tanks themselves.

- Ask where OST removal documentation is
- Was any further work done after Parlobe installed wall.
