ENV-UST MONITORING WELL DESTRUCTION DATA Re:

424 Martin Luther King Way Oakland, California

Dear Mr. Peacock:

Enclosed is a copy of data dated August 19,1993, that documents the closing of the last remaining monitoring well, and represents Texaco's final reporting requirements for this site.

If you have any questions or would like to discuss the report or work plan further, please call me at (818) 505-2476.

Very truly yours, Texaco Refining and Marketing

Nobbe Bob Robles

RE:

MONITORING WELL DESTRUCTION FORMER TEXACO SERVICE STATION 424 MARTIN LUTHER KING, JR. DRIVE OAKLAND, CALIFORNIA

Dear Mr. Robles:

This correspondence is provided by Groundwater Technology, Inc. to document the destruction of monitoring well, MW-2, at 424 Martin Luther King, Junior Drive in Oakland, California (Figure 1). The work was performed on July 23, 1993, by drilling out the well box, PVC casing and well screen, and filling the boreholes from the bottom to one foot below grade with portland cement. The destruction of the monitoring well was performed in accordance to the State of California, Water Well Standards, Bulletin 74-81, Section 23 for water well destruction and in accordance to Alameda County Zone 7 Water Agency under permit #93252. A water well driller report has been forwarded to the California Department of Water Resources in Sacramento, California documenting the destruction of the well.

Approximately 0.5 cubic yards of soil generated during the well abandonment activities were placed on plastic (visqueen) and covered until soil characterization was completed. One soil sample was collected from the stockpiled soil and submitted to a California-certified laboratory for analysis of benzene, toluene, ethylbenzene, and xylenes (BTEX), and total petroleum hydrocarbons-as-gasoline (TPH-G) using Modified EPA Method 5030/8020/8015. The analyzed soil sample did not contain detectable levels of petroleum hydrocarbons (Attachment 1). The debris and soil were disposed of by Integrated Wastestream Management of Milpitas California.

Please contact Groundwater Technology's West Sacramento office if you have questions or comments.

Sincerely,

Groundwater Technology, Inc.
