Re: Joe Sio Chevrolet, 914-916 San Pablo Avenue, Albany, California

Comments:

Juliet,

Attached for your review is a site plan with three proposed geoprobe sampling locations. As discussed during our July 30, 1996 telephone conversation, the sampling locations are positioned (1) between well MW-1 and the building, (2) between well MW-1 and the southern property boundary, and (3) adjacent to well MW-2.

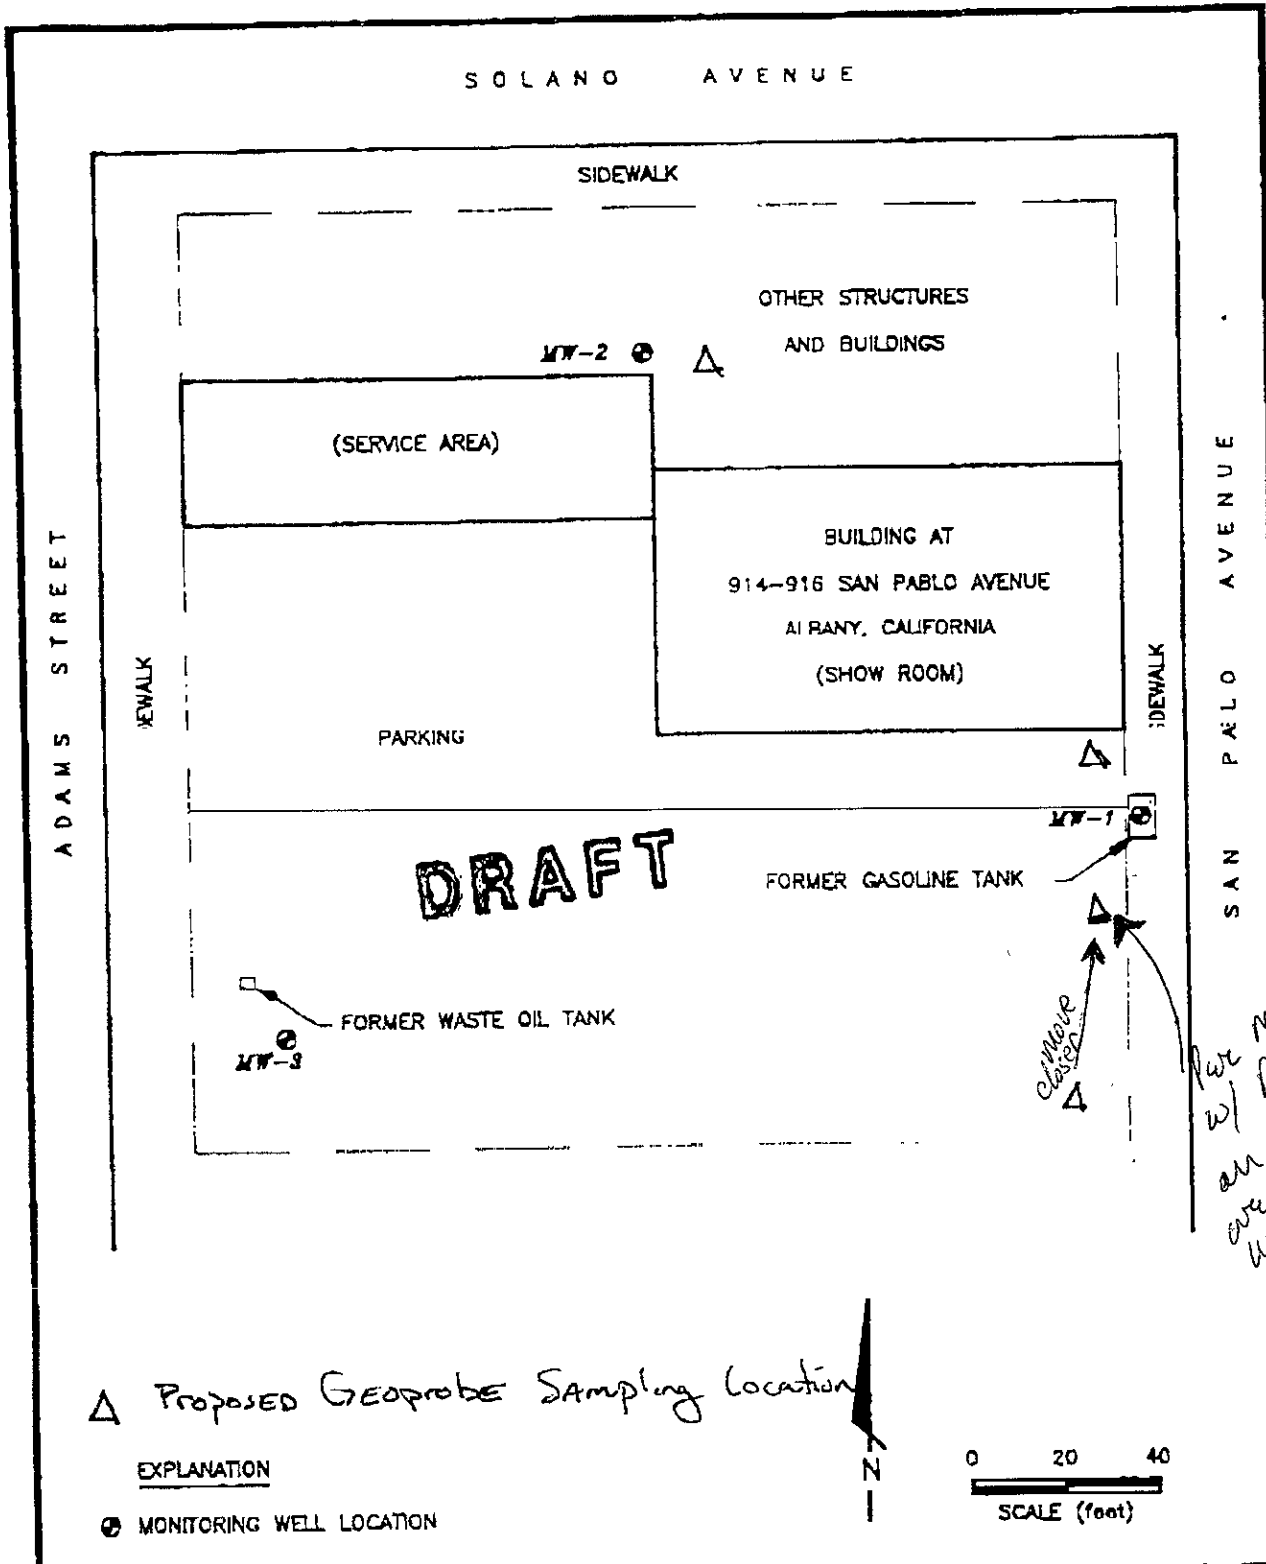

I am hoping to mark these locations for utility survey this week. Please give me a call with any comments at your earliest convenience.

Thank you,

Khaled 

If you do not receive all the indicated pages, please give us a call.

If you have received this communication in error, please immediately notify the sender by telephone, and we will arrange for the return of the facsimile. Thank you.

Per my conversation w/ Mr. Rahman on 8/22/96 this well location will be moved between 20 to 40' away from MW1 - gms
