Subject: Ground Water Data for Site Closure Report for Stockel Property
3234 Castro Valley Blvd., Castro Valley, CA

Dear Scott:

In accordance with your request we have compiled the depth to ground water data recorded during the ground water sampling events at the subject site. This data is in support of the hydraulic gradient information presented in our February 24, 1994 Site Closure Report and is hereby incorporated by reference.

DEPTH TO GROUND WATER
(measured in feet from top of well casing)

<u>Date Sampled</u>	<u>MW-1</u>	<u>MW-2</u>	<u>MW-3</u>	<u>MW-4</u>	<u>MW-5</u>
6-4-90	6.51	5.34	5.10	5.96	5.44
3-13-91	4.25	destroyed	3.82	4.78	4.25
4-30-91	5.38	destroyed	5.13	5.99	5.42
5-20-91	5.55	destroyed	5.33	6.16	5.60
6-18-91	5.87	destroyed	5.68	6.50	5.90
7-30-91	5.96	destroyed	5.86	6.65	6.04
8-29-91	6.10	destroyed	6.03	6.84	6.20
9-25-91	6.30	destroyed	6.21	6.99	6.38
6-10-92	5.61	destroyed	5.42	6.26	5.68
10-29-92	6.09	destroyed	6.03	6.79	6.20
high:	4.25	5.34	3.82	4.78	4.25
low:	6.51	5.34	6.21	6.99	6.20

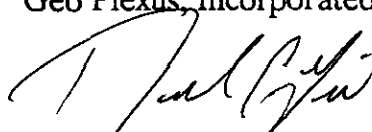

As previously discussed, we have reviewed our files regarding the investigation and remedial activities and we have conferred with Mr. Tom Gregory with KTW & Associates regarding their field activities. The results of this review indicated that the investigations performed by David C. Glick Associates identified the non-detectable limits of the soil contamination and that KTW & Associates excavated to the limits defined by the analytical testing. As such, confirmation samples were reportedly not acquired at the time the remedial excavation was performed.

Mr. Gregory also indicated that the documentation regarding the remedial action was probably a summary letter to Ms. Stockel indicating that the work was accomplished and a remedial summary report was probably not prepared.

We trust that this additional information, although limited, will assist you in processing the site for closure. Should you require additional information at this time, please contact us or contact Tom Gregory at (510) 732-9877 (for tank removal and remedial work).

Respectfully submitted,

Geo Plexus, Incorporated

David C. Glick, CEG 1338 ☆
Director, Geological and
Environmental Services
