

Person present at the meeting on 4/26/90 @ 2724
Corte Valley Blvd.

Michael Casey, Converse Env.
Doug Charlton, " "
Diane Lundquist, Shell Oil
Bill Fisher, " "
Michael Johnson, Attorney for Shell
Dr. Milton Righetti, Property Owner
Matthew Righetti, Attorney for Dr. Righetti
Ed Howell, Ala Cty Haz Mat
Scott Seery, " " " "
Larry Seto, " " " "

It was agreed upon that the excavation under the canopy area can be back filled for safety ~~reasons~~ reasons. A meeting will be set up on 6/15/90 to discuss further the remediation at the site with the consultants of Shell & Righetti present.

For meeting on 4/26

1) Sample location of sample # 22 + 23

1) Is there a map identifying where the representative samples were taken and conc. of contaminants, TPH(C), BTX+H in the canopy area.

2) Explain the critical need in determining the sampling locations

3) Details of new well excavation

4) Former waste oil tank area - what amount of contamination was to be removed in 1991, and were representative samples taken?

5) Why not test TPH (D) tested for in MW-1, 3 and 5
~~MW-2, 4, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100~~

6) MW-2 should be tested for PCB, semi-volatile from old waste oil tank area and VOC, Alkylates

7) M.V. needs to be installed in the vicinity of the present location of the former waste oil area

8) Groundwater investigation work plan with schedule of work for on-site and off-site should be submitted
