Re: 299 Euclid Ave., Oakland, CA 94610

Dear Joseph Smith:

This office has received and reviewed an Underground Storage Tank Removal Final Report by All Environmental, Inc., dated December 28, 1993. This office accepts the report with the following comments.

1. There is no request for site closure in the report, although it is suggested that all contamination was removed.
2. No Underground Tank Leak form has been filed, as required. This was mentioned to Mark Johnson, who has the necessary form.

If you have any questions please call this office at (510) 271-4530.

Sincerely,

Thomas F. Peacock, Supervising HMS
Hazardous Material Division

RE: Residence
299 Euclid Ave.
Oakland CA 94610

Lori,

I am requesting use of state funds for the above-referenced site. It is a single-family dwelling property from which a 250-gallon heating oil tank was removed on 11/16/93. Up to 6700 ppm TPHd was detected in the soils beneath the tank.

Sincerely,

Jennifer Eberle
Hazardous Materials Specialist
