Subject: January, 1991 Quarterly Groundwater Sampling Report at  
Valley Nissan/Volvo  
41100 Boyce 6015 Scarlett Ct.  
Dublin, California

Dear Mr. Wilstar:

Clayton is pleased to submit the enclosed quarterly laboratory analytical report and the water sampling survey for the subject property. The groundwater sample was collected on January 23, 1991 from monitoring well MW-1. No hydrocarbons were detected.

This sampling event completes your required one year of quarterly groundwater monitoring. Clayton recommends discontinuing further monitoring activities and closure for the subject property. If acceptable, Clayton will propose to the client to permit and properly abandon all monitoring wells.

Clayton appreciates the opportunity to work with you and Valley Nissan/Volvo on well sampling and analytical services. Please contact me at (415) 426-2670 or Mr. Alan Gibbs at (415) 426-2676 should you have any questions.

Sincerely,

Richard Silva
