

8/23/95 ANC meeting
w/ Sam, D. Bruzinski, Ed Alusau, T. Engstrom
* Ed Rawlings, R. Rivetna

- J. Moran - will be leaving in one month.
* Project lead

permitted
• Rust believes "closure" of facilities is complete
• DTSC (S. Knorr) told ANC that he will
request Water Board to incorporate temp storage
into SRMP.

* Aug 4, 1995 DTSC letter need copy
ANC - Oakland Temp. Storage Area
need (WB + County) temp storage area
post sampling report.

- consent order (DTSC) will require
when they get written RWBB includes
the temp. storage area into ^{the} SRMP.

U.W.S in SRMP will be installed
9/95. + monitoring ^{started} in October 1995.

- Take 2 soil borings & just fly as background spls
- Cleanup levels \approx BG (2 BG spls + 2 deepest spls) using statistical analysis
 $\text{pop. mean} + \frac{2 \text{ STD}}{80\% \text{ Confidence level}}$ from pop mean.
 Take other 6 of 8 spls in solder dress area + test for metals

DSA - no added spls
 take archive spls for Total Pb,
 soil Pb + Zn

PBB (volatiles)?

"TOXIC NEW THINK" - clean closure ok
 for a health Risk assess #.

1/25/95 Update from con w/R. Burzinskiy

o Acetone tank removal report - next wk
+ an additional well to address this
put into SRMP

- MW 6 was w/i Temp Storage area
- Add PCBs in Area 3 wells.
- Add all parameters in MW 1 (replacement well) in Area 3

SRMP Addendum

~~Final~~ SRMP - prepared next week, delivered
~ 10-12 days

7.0 (reference PES H+S plan for future site workers).
