

RE: EB Scaffolding
2552 San Carlos
Castro Valley

MEM to file:

Oct. 1991

I spoke w/ property owner Mel Kauffman after receipt of his Oct. 14, 1991 (which was issued in response to the Oct. 3, 1991 letter from this office). I explained the difference between a PSA and the soil vapor survey report by CEC. He indicated he now understood. I reiterated the need for GW wells/borings, and a PSA proposal describing such.

SOS

2/3/92

No PSA proposal has yet been submitted. I called Mr. Kauffman (209-858-4125) and left a message.

C.U.

MEMO to file.

2-8-91

Mel Kauffman called today in response to the Feb 1, 1991 correspondence from this office. He said EB Scaffolding had moved elsewhere (Hayward?). He also said it was they who uncovered the tank and repaired it.

Apparently, Certified Eng. Consultants prepared some preliminary data at the site based on a limited boring episode several months. The report was apparently sent to Mr. Kauffman, who promptly forgot about it. (Mr. Kauffman indicated that he has recently been out of town often to visit his ailing daughter.).

I asked Mr. Kauffman to submit what info he had along with a cover letter explaining what has occurred, and requesting an extension to the PSA due date. He needs to shop around a bit more for a consultant.

MEMO to file:

Dec. 12, 1990

I called Mel Kaufman (209-858-4125), property owner, regarding the overdue submittal of a PSA proposal. As Mr. Kaufman was presently unavailable, I left a message for him to call.

SAS

Mr. Kaufman called back indicating some kind of "drilling" and sampling had already occurred, and he was awaiting receipt of the report. I asked that he contact the consultant and have them call me.
